13Network recommended settings for printing

1. User Internet Explorer 11.
2. Log into 13Network, access a case, and then use PC1 for calculations.
3. When ready to print, click on File from IE's tool bar.
4. Select Print Preview
5. Select Portrait by clicking on the Portrait icon (In some cases, Landscape may give better results so the layout setting and the percentage settings will need to be played with)
6. Select 1 Page View
7. Select "As laid out on screen"
8. Select 70% first and scroll down to see if you get the entire bottom frame.
    a. If not, then try 60% and then 50%
    b. If you have to go lower than 50%, then you may have to turn PostScript off if used.
